UNPACKING & INSPECTION

Open the shipping carton and verify that call equipment necessary to operate the system has arrived intact. Included with your SFB-1000 Bubble Machine should be the following items:

1. This user manual.
2. Power cord.
3. Wireless remote control (Remote control receiver plate built-in).

*Bubble fluid sold separately.

If any advice is missing, contact your dealer immediately. Before beginning initial setup of your bubble machine, make sure that there is no evident damage caused by transportation.

In the event that the unit's housing or cable is damaged, do not plug it in and do not attempt to use it until after contacting to your dealer for assistance.

SETUP

1. Remove all packing materials from shipping box, check that all foam and plastic is Removed.
2. Place bubble machine on a flat surface. Fill with bubble liquid or other high-quality water-based bubble liquid. Any other types of liquid can damage the unit.

OPERATION

1. Put the machine on a level place and then pour bubbles fluid into the basin of the machine. Connect the power supply.

2. To use the wireless control: turn on the switch, press the transmitter in your hand, and now the machine works.

3. Please let the bubble fluid out from exit at the back side of the machine if the machine is not used for long, and then power off.

MAINTENANCE

Cleaning your bubble machine regularly will help reduce costly parts replacement and repair charges.
